

2023 IEEE INTERNATIONAL WORKSHOP ON

# Metrology For Automotive

MODENA, ITALY

JUNE 28 - 30, 2023

## CALL FOR SPECIAL SESSIONS

IEEE MetroAutomotive 2023 Program Committee solicits proposals for special sessions within the technical scopes of the Workshop.

Special sessions have the main aim of creating a mini-workshop on a specific topic, where researchers working on the same argument can make knowledge, familiarize, exchange ideas, create cooperation. The participation of speakers from industry in a special session proposal is encouraged and will be positively evaluated when the proposal is assessed.

All papers will be subject to the same peer review process as for regular papers and will be submitted for publication in IEEEExplore Digital Library.

### PROPOSAL SUBMISSION

Researchers interested in organizing special sessions are invited to submit a proposal through the form available at the following URL

<https://metroautomotive.org/special-session-proposal>

Proposals should include the session title, a brief description of the scope and motivation, related topics, biographic and contact information of the organizers.

Papers submitted to special sessions will undergo the same review process as regular papers, where the SS proposers are responsible for organizing the peer-review process, ensuring that at least 3 review reports per paper are received. If a Special Session has a low number of accepted papers, these may be combined with other special sessions wherever possible, or moved to the regular track. In case of indication of weakly organized special sessions, the Special Session Chairs will support the organizers with advices, but also reserve measures including cancellation of the respective special session.
